

Friends of Codorus State Park present:

Youth Archaeology Week

Ages 9-12

Dig into history at Codorus!

June 19—June 23, 2023
9:00AM-3:00 PM

The Friends of Codorus State Park in conjunction with Codorus State Park will host a youth Archaeology Camp the week June 19 – 23, 2023 from 9:00 a.m. until 3:00 p.m. Students ages 9 – 12 are invited to register for this educational and fun week. The students will be conducting real archaeology under the leadership of local archaeologist Jeri Jones at the site of the Mary Ann Furnace, the oldest cold-blast furnace west of the Susquehanna River. Jeri conducted excavations at the furnace site in 2009 and 2010 with the support of the York County Parks. Additional information has been found since then that warrants further excavations.

The cost of the program is \$240 per child. The students must supply their own lunch and beverages. Registration is now open for the week with a limited number of spots. Click on this link to register: <https://friends-of-codorus-state-park.ticketleap.com/archaeology-camp/dates/Jun-19-2023> at 0900AM.
